At Powerline and Diamond Hill: Unexpected Intersections of Life and Work

Available after the program in the back of the Fellowship Hall

Short Biography of Lee

From a western childhood in a secluded Mennonite community to international experiences to heading a university, Lee Snyder attributes her unexpected opportunities to a home that nurtured faith, learning and curiosity—and to parents who modeled risk-taking. In the face of the community's distrust of higher learning, education opened doors for Lee's entrée into leadership. Reflecting on the surprises of one's calling, Lee continues to ponder those strange and marvelous paths which lead to **life-work** that is larger than any one individual.
